EDITION

Welcome to Entrance Composite Door Solutions, where security, style, and performance come together to provide the ultimate door for your home.

We understand that your family's safety is a priority, which is why all our doors are independently tested to exceed PAS24 security standards and are Part Q compliant. Our hybrid GRP Composite doors feature an impact-resistant 2mm GRP skin, a robust LVL Timber frame structure, and an insulated foam core, ensuring your home is protected with the highest level of security.

At Entrance, we believe in offering not just top-tier security but also a door that complements your style. Our GRP doors are fitted with advanced German-engineered Winkhaus multipoint locking systems and high-security 3 Star Kitemark Cylinders, backed by a £5,000 guarantee against burglary. With low maintenance and a 10-year surface finish guarantee, our doors keep looking great for years to come.

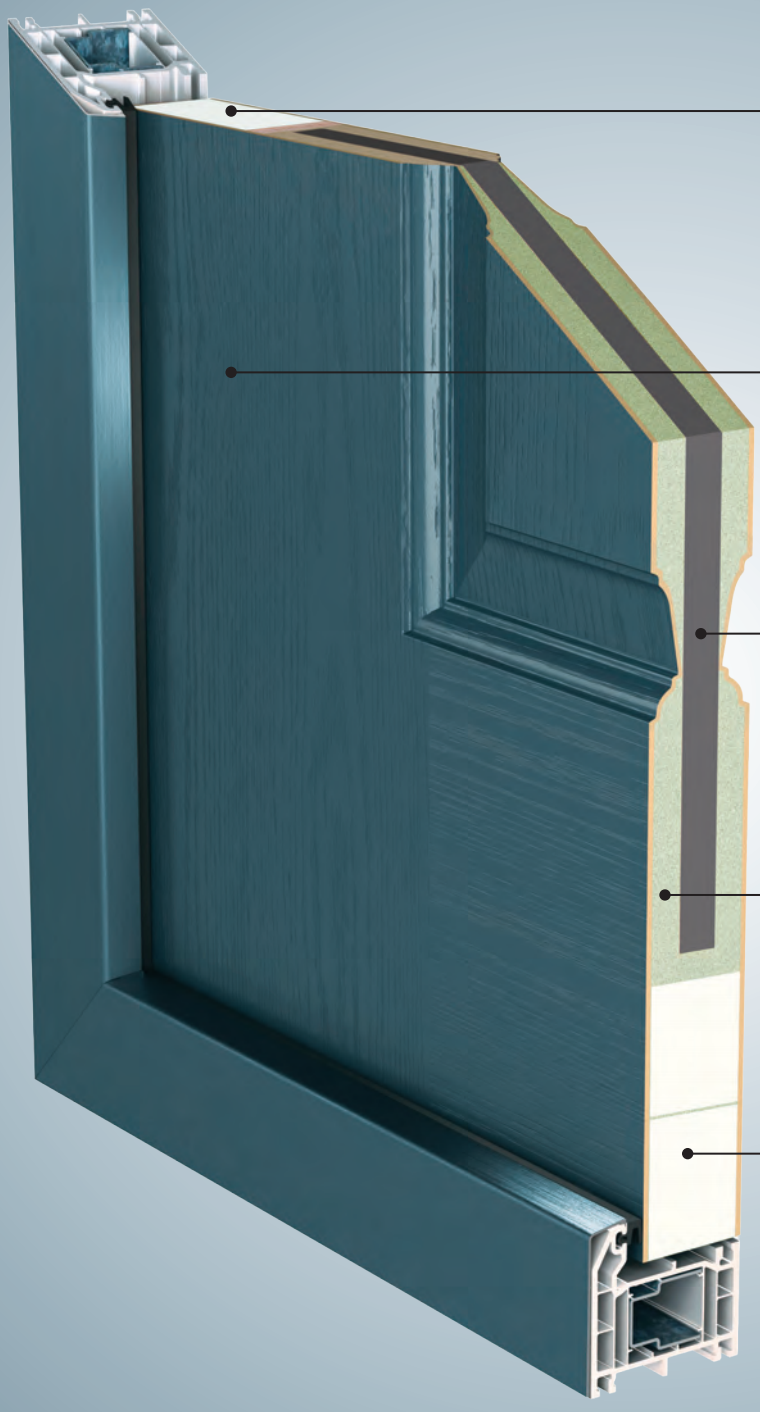

We offer a variety of colours and finishes, from standard to stained, and even the option to match your frame colour with your door for a seamless look. With an attention to detail in every aspect - from triple-glazed glass designs to premium hardware such as our Brooklyn PVD Brass handles - your door will reflect the highest standards of craftsmanship.

With superior security, structural strength, and thermal efficiency, our composite doors are proven to be 19% more thermally efficient than traditional timber doors, helping you save on energy costs while enhancing your home's comfort. Choose an Entrance Composite Door, and enjoy peace of mind knowing you've selected the best in both security and style.

HYBRID DOOR

At Entrance, we believe outstanding doors are created through intelligent engineering, not simply by using more material.

That's why we developed our Hybrid door slab construction - combining carefully selected materials that each perform a specific role to create a door that delivers exceptional strength, stability, security, and thermal efficiency. Many composite doors rely on a single core material. Hybrid construction combines multiple engineered components, each selected to perform a specific role, delivering exceptional security, stability, thermal efficiency and durability.

LVL Timber Rails

- Structural Stability
- Exceptional Strength

Thermoset GRP Skin

ELEGANCE COLLECTION | 6 - 31

Introducing the new Elegance Collection - a beautifully crafted range inspired by the timeless appearance of traditional timber doors. Featuring a smooth skin finish, moulded panels, and sculptured cassettes, the collection captures authentic heritage styling while delivering all the benefits of a modern composite door. To complement the classic character of the range, we are also launching newly designed stained glass options, perfectly suited to period and heritage properties.

INOX COLLECTION | 32 - 47

Inox Doors feature 316 grade stainless steel glazing frames for a sleek European look, ensuring lasting shine and beauty. These frames are paired with modern decorative glass options, all within a triple-glazed unit for superior thermal efficiency and easy maintenance. Our Inox Glazing system offers a range of styles, from the simple Munich to the elegant Barcelona available in both Satin Stainless or Black.

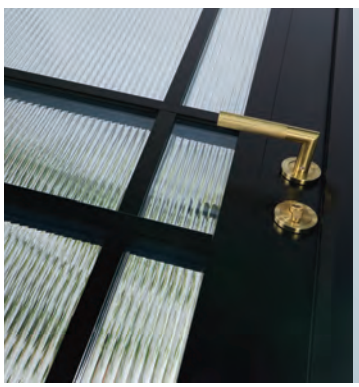

ELEMENTS COLLECTION | 48 - 55

The Elements Collection brings together a striking range of contemporary door designs, enhanced by our distinctive Urban aluminium cassettes. Framing the glazing with clean, architectural lines, these premium cassettes create a modern statement while adding character to each design. Available in their natural aluminium finish for a bold contrast, or colour-matched to the door for a seamless, integrated appearance, the Elements Collection offers the flexibility to create a truly bespoke entrance.

EDGE COLLECTION | 56 - 65

The Edge Collection offers striking contemporary door designs with endless customization options; you can create a truly unique door. This ultra-modern collection goes a step further with grooved designs etched into the surface of the door for a sleek finish. Strata and Vector are new to the collection, with raised battens inspired by the acoustic panel trend. Available with complementary grooves or feature metal inlays, the Edge Collection epitomizes contemporary door design.

HIGHLINE COLLECTION | 66 - 77

Introducing the Highline Collection, a range of door designs that blend timeless elegance with modern innovation. Inspired by iconic mid-century steel windows, the Highline door designs offer a stunning Art Deco look, combined with the Fluted glass as one of our triple glazed glass options, perfect for making a statement to your entrance.

EXCLUSIVE

EVEREST

The Everest door brings the charm of a traditional heritage entrance into homes where space may not allow for a separate fanlight. Featuring a distinctive horizontal toplight unit, Everest recreates the appearance of a classic timber door and fanlight combination within a single elegant design. Already a hugely popular style within our Gemstone range as the Coral, the smooth finish of the Elegance Collection elevates the design even further.

DOUBLE DOORS

Make a statement with the Entrance® double door collection. Perfectly suited to both traditional and contemporary homes, double doors create a truly grand entrance, combining impressive aesthetics with exceptional practicality and security.

DOUBLE DOORS

Manufactured with the same precision and attention to detail as every Entrance doorset, our double doors are fully tested to both Part Q and PAS24 standards, giving homeowners complete confidence without compromising on style.

Two Locking Styles, Tailored to Your Home

Standard Operation

Contemporary Operation

Standard Double Door Operation
For the classic 'French door' appearance, our Standard lock option features fully functioning lever handles on both the primary and secondary doors. Available in a wide range of handle finishes and supplied with a pair of 3-star profile cylinders, this configuration offers symmetrical styling with the practicality of independent door operation.

Contemporary Double Door Operation
For a cleaner, more modern aesthetic, our Contemporary lock option combines the Winkhaus FAB system with automatic locking AV4. Designed for homes where the primary door is used for everyday access, the secondary door operates via flush bolts and can be opened when full access is required. This option is perfectly paired with bar handles and cylinder operation on the primary door only, creating a sleek and minimalist appearance.

Why Choose Entrance® Double Doors?

- Create a striking, grand entrance for traditional and contemporary homes
- Available across the full range of Entrance door styles and glazing options (excluding stable doors)
- Choice of Standard or Contemporary locking configurations
- Compatible with lever handles or modern bar handle designs
- Fully tested to Part Q and PAS24 security standards
- Engineered for outstanding strength, security, and everyday performance

With Entrance double doors, homeowners can enjoy impressive design freedom alongside industry-leading security and functionality.

All of our Standard and Painted colours are available on grained or smooth doors*

*Special Stains are not available on Smooth doors or Colourmatch Grained frame | *All door styles may not be available in 'Standard' due to availability however the door can be painted to the closest RAL of the standard colour | **Premium colours come in already extruded as the specified colour not requiring painting. This is not possible when colourmatch frame has been chosen or on certain door designs | ***Available as a premium finish in some door designs, check our door builder for availability | Colours are for visual representation only, printing practices may cause colour variation.

PROFILE COLOUR OPTIONS

At Entrance® we offer a wide selection of profile colour options along with the option of Ovolo for the traditional sculptured look or Chamfered for a more modern, clean look of frame styles.

Choose from our Standard Frame Colours shown on this page, all of which are foiled (excluding the White PVC and Painted Smooth option), or opt for your door and frame to be painted the same colour at the same time to give your house the grand Entrance® it needs.

Painted Textured Frame Option – A lightly textured finish on a smooth frame to perfectly complement our smooth door collections.
If white is chosen on inside, it will be our standard white PVC frame.

Painted Grained Frame Option – A painted, pre-foiled frame to give a grain effect and painted and or stained at the same time as the door to ensure a colour match.

SIDELIGHTS THAT MAKE AN ENTRANCE

A beautiful entrance is about more than just the door. Sidelights create balance, maximise natural light and transform the entire appearance of your home, making even the simplest entrance feel more spacious, welcoming and distinctive.

Our bespoke sidelight glazing collection has been carefully developed to complement our door glass designs, allowing you to create a perfectly coordinated entrance from every angle.

Whether you prefer elegant bevels, traditional leaded designs, contemporary decorative glass or enhanced privacy options, each sidelight has been designed to work seamlessly alongside your chosen door.

For those looking to create something truly individual, our dedicated **Sidelight Portfolio** offers an extensive range of glazing designs, giving you the flexibility to personalise your entrance while maintaining a cohesive, professionally designed appearance. Whether you're restoring a period property or adding character to a modern home, there's a solution to suit every style.

Manufactured to the same exacting standards as every Entrance composite door, our sidelights combine exceptional craftsmanship with the performance, security and durability expected from a premium entrance system.

Because a great entrance isn't just about the door - it's about creating a statement that welcomes you home.

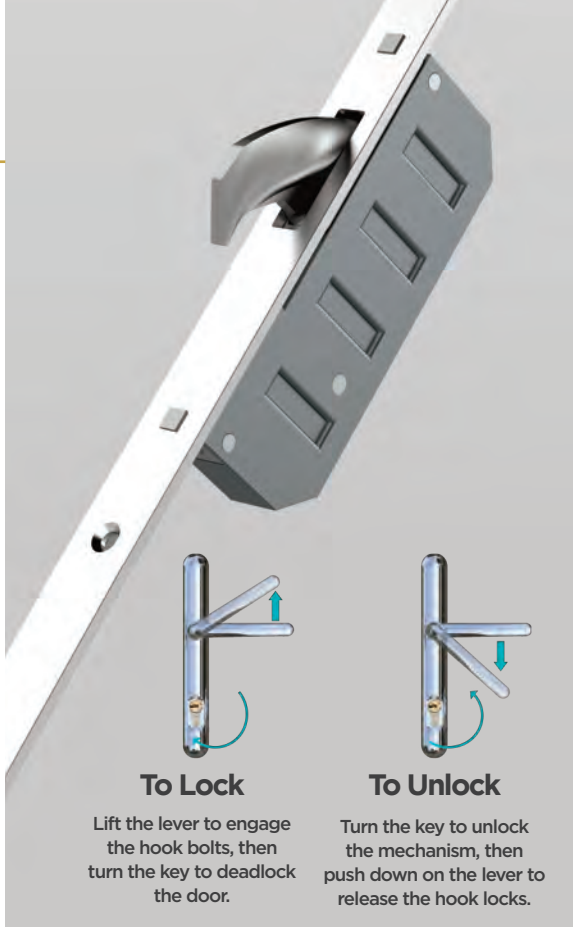

Every Entrance® composite door is supplied with high security multipoint locking from market leading German manufacturer, Winkhaus. Paired with the 3 Star cylinder with a £5000 guarantee against burglary break-ins via the cylinder, an Entrance® composite door offers the complete package on security.

Lock Option – Security as Standard

Every Entrance® composite door is built to keep your home safe, combining premium materials with outstanding security features - all as standard.

- Lever-operated lock featuring:
  > Two solid compression hooks
  > Central deadbolt for enhanced security
- High-performance Winkhaus Trulock multipoint locking system fitted as standard
- Manufactured in Germany for exceptional quality and reliability
- Simple operation – lift the handle to engage full deadlocking
- Delivers outstanding security performance and reliable weather sealing
- Fitted with the industry-leading 3-Star Security Cylinder as standard
- Provides ultimate resistance against forced entry attempts
- Wide range of handle finishes available to suit every style
- Designed to ensure your entrance reflects both your style and your security requirements

To Lock
Lift the lever to engage the hook bolts, then turn the key to deadlock the door.

To Unlock
Turn the key to unlock the mechanism, then push down on the lever to release the hook locks.

Lock Option – Winkhaus AV4 AutoLock – Effortless Security with Style

The German-engineered Winkhaus AV4 offers advanced security with automatic locking every time the door closes - no need to lift a handle.

- Simple Key-Turn operation – to both deadlock and unlock the door
- Available in two coordinated hardware packages:
  > Heritage – shoulder-height key operation for traditional door styles
  > Contemporary – hip-height key operation for modern door designs
- Perfectly suited to our range of pull bar handles and cylinder pulls
- Features an optional Daylatch function for keyless re-entry ideal for:
  > Quick trips outside
  > Children moving in and out of the home
- Redesigned hook mechanism for smoother operation and improved performance
- Requires 40% less operating force than previous models
- Designed to be robust & low maintenance

Heritage Cylinder Pull
Internal and external cylinder pull option on Heritage lock doors.

Heritage Pull Bar
Pull bar on exterior with escutcheon and thumb-turn function.

HARMONISED HARDWARE

Our suited hardware collections are designed with harmony in mind - ensuring every handle, letterplate, escutcheon, and accessory works together seamlessly in both style and finish.

Whether you prefer the timeless appeal of heritage detailing or the clean precision of contemporary design, each component is carefully selected to match and complement your door choice perfectly.

Because when every detail works together, your door makes a stronger statement.

BACK TO BLACK

Bold. Sophisticated. Timeless. Black-finished hardware is making a striking return - and it's here to stay.

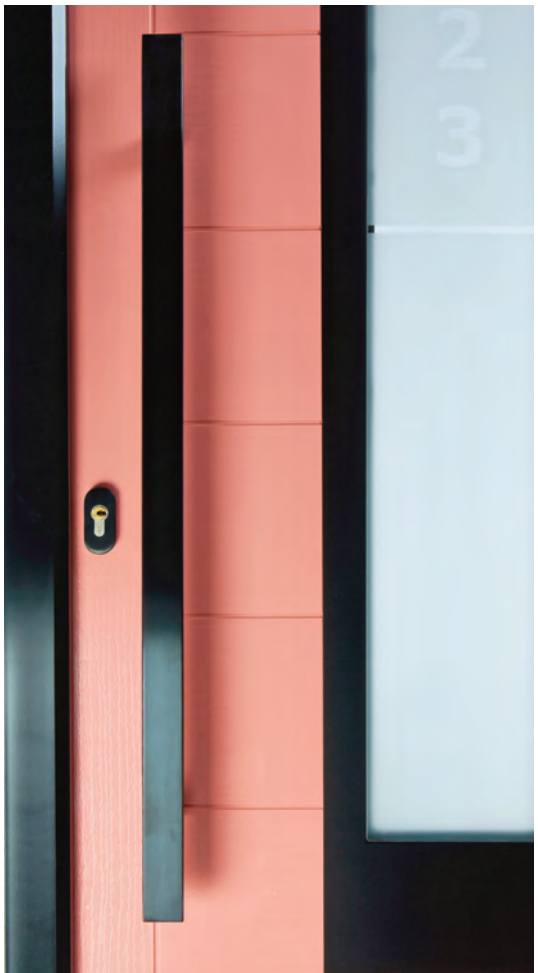

Offering a perfect blend of classic charm and contemporary edge, black handles, hinges, and accessories add a bold finishing touch to any door style.

Whether paired with vibrant colours for contrast or used to complement deep, moody tones, black hardware creates instant impact. It's versatile, stylish, and effortlessly elevates both traditional and modern designs. Step into the trend - go Back to Black.

STAINLESS STEEL

Sleek by Design - Modern, Minimal and Built to Last.

Crafted from Grade 316 Satin Stainless Steel, our contemporary hardware range offers the ultimate in style, strength, and corrosion resistance - making it ideal for both coastal environments and everyday use.

From clean-lined lever handles to bold, architectural pull bar handles, each piece is designed to enhance modern composite door styles with a flawless, brushed finish. Coordinating furniture - including letterplates, escutcheons, and cylinder pulls - ensures a fully cohesive and professional look.

Sleek lines. Superior material. Stainless steel, redefined.

BROOKLYN HANDLE

The Brooklyn Lever on Rose is the finishing touch for those who appreciate understated luxury.

Featuring a precision-machined knurled grip, it delivers a contemporary industrial aesthetic while providing exceptional comfort and control every time the door is operated.

Designed to complement the effortless operation of the Winkhaus AV4 Autolock, the Brooklyn handle requires only a light downward movement to retract the latch, creating a smooth and refined user experience. The low operating forces of the AV4 make it the ideal partner for this elegant lever, combining premium design with everyday practicality.

Whether fitted internally and externally for a clean, minimalist appearance or paired externally with one of our statement pull bar handles, the Brooklyn lever creates a seamless, coordinated look throughout the home - bringing luxury to every entrance.

BIOMETRIC E-KEY

The ultimate in convenience and security, our NEW D-Line Ekey Biometric readers use fingerprint technology to allow you to enter your home.

With over 6 billion people in the world, your fingerprint is unique and you always have it with you so why not use it to enter your home.

No more need for keys in your day-to-day routine, this simple yet effective system can be used by up to 100 people, each programming in up to 10 fingers. With Bluetooth controls and simple programming via your smartphone, this truly is the lock of the future, available now.

The technology constantly re-learns you finger every time you use it so families with growing children are catered for and you never have to worry about leaving your home unsecure, being locked out or even losing keys.

New Features

- Push Notifications to smart phone with each entrance to your home
- Unlock your door remotely
- Set up new users with app that logs all activity
- Bar handle with integrated scanner
- New, smaller scanner design for sleeker appearance

The New Ekey Scanner is available as a scanner mounted to the door at shoulder height beside your choice of bar handle, or no handle on the outside if you prefer.

Brand NEW to the Entrance range is the Ekey Integrated within the bar handle, where the scanner is embedded in the pole of the bar handle with no need for a separate scanner.

ACCESS CONTROL SOLUTIONS

Take control of how you enter your home or property with our versatile range of access control solutions. From intelligent biometric technology for private homes to reliable systems designed for communal entrances, we offer solutions tailored to suit every application.

Scan here for guidance on the access control system best suited for your home

E-Key delivers a futuristic biometric experience using fingerprint recognition, wired directly into your home for secure and effortless keyless entry.

Nuki provides a simple smart solution operated through an app, featuring an integrated rechargeable unit and the ability to be retrofitted to existing doors.

For multi-occupancy and residential developments, our **Electric Latch Release** system offers reliable and secure controlled access for communal entrances.

Whether you're looking for intelligent home automation, convenient keyless entry, or secure communal access, our access control range brings together innovation, security, and ease of use.

Electric Latch Release

Designed specifically for multi-occupancy and communal and entrances, our Electric Latch Release option provides a dependable locking solution for controlled property access. The system is wired directly into the property and is designed to integrate with external access control systems.

Access can be granted via a code entry system or buzz through external access system, with a turn-key override available for external access when required. In the event of a power outage, two operating options are available:

- **Fail Safe – Retracts the hooks and deadbolt, allowing occupants to exit the property safely without a key.**
- **Fail Secure – Keeps the property locked, with exit available via key operation only.**

For the best user experience, this option is ideally suited to fixed pad handles or pull bar handles, with push/pull signage supplied where required.

Please note that we supply the locking system only and do not provide keypads, intercoms, or access control equipment. Please speak with your chosen supplier regarding suitable entry systems and control options.

ADDITIONAL SECURITY

ULTION | NUKI
SMARTER LOCKING

NEW AND APPROVED
The Ultion Nuki is our latest evolution of our award-winning smart lock, now with an ultra-sleek streamlined design, built-in Wi-Fi bridge.

HANDS FREE AUTO-UNLOCK
Ultion Nuki has an option that can unlock the door when it senses you're close to it, and locks it again after a few seconds. The Ultion Nuki can always be operated manually through the use of a physical high-security key.

£5000 GUARANTEE
At the heart of every Ultion Nuki is a 3-star PLUS Ultion lock – and the Nuki unit itself has the highest AV security rating, with three stars.

PRESS, TWIST AND RELAX
The centre of the Ultion Nuki is a button. This can be set to tell the motor to lock or unlock the door. Or you can simply twist the dial for a manual operation.

OPTIONS AND UPGRADES
Three colours, each with a black and a white ring for two distinctive looks and an escutcheon version for doors with long handles instead of a lever.

KEY FOB
The bluetooth key fob can be set to unlock your door within 10 metres of the door.

WIRELESS FINGERPRINT KEYPAD
Set 200 different passwords and lock the door by pressing one button. Codes that work only at specific times and on particular days. Plus, it can be accessed with fingerprint recognition.

DOOR SENSOR
The Ultion Nuki Door Sensor pairs with your Ultion Nuki smart lock to give you a live view of your door status. The sensor detects the exact moment the door is closed and can lock your automatically.

Apple HomeKit | Google Home | Amazon Alexa | matter Connectivity | NUKI Nuki app | ULTION Ultion key

Manage the door lock through your preferred smart home platform, our free app or your Ultion door key.

Thank you for choosing entrance

COMPOSITE DOOR SOLUTIONS

Built to Last. Designed to be Enjoyed.

Your new Entrance Composite Door has been designed to provide years of security, style and performance. Manufactured using premium materials and rigorously tested to exceed industry standards, every door is built to withstand the demands of everyday life while requiring very little maintenance.

To help you get the very best from your new door, we include our Thank You & Care Guide with every door, containing simple advice on keeping your door looking and performing as beautifully as the day it was installed. With just a little routine care, your Entrance Composite Door will continue to welcome you home for many years to come.

A Few Minutes of Care Makes Years of Difference.

Your Entrance Composite Door has been engineered to be low maintenance, but we recommend a few simple checks throughout the year:

- **Clean the door, frame and glass using warm soapy water and a soft cloth**
- **Wipe down hardware regularly to remove dirt, salt and airborne contaminants**
- **Lightly lubricate locks, hinges and moving parts with a suitable lubricant**
- **Check drainage channels and weather seals are free from debris**
- **Avoid abrasive cleaners, solvents or pressure washers**

Peace of Mind Comes as Standard.

Every Entrance Composite Door is backed by comprehensive product warranties and manufactured to the highest standards, giving you confidence that your investment is protected.

By following the simple maintenance advice included with your door, you'll help preserve its appearance, maximise performance and ensure years of reliable operation.

Thank You!

From everyone at Entrance Composite Door Solutions, thank you for trusting us with your home. We hope your new door provides years of security, warmth and a welcome you'll be proud of every day.
